

NIKKOR **Z**
40mm f/2

SMALL BUT LYRICAL

Want your subjects to act naturally? This affordable 40 mm full-frame mirrorless lens is sharp, fast, and small enough to wield discreetly. From vlog to vibrant snapshot, you'll get great results even in low light.

FEATURES

BEAUTIFULLY CANDID.

The 40 mm focal length is ideal for candid portraits, interviews, and how-to videos. With Z series DX-format cameras, this lens offers a 60 mm angle of view: perfect for posed portraits and frame-filling close-ups.

ARTFUL BOKEH

Bokeh is creamy and perfectly rounded. Putting your subject in sharp focus against beautiful, softly blurred backgrounds has never been easier.

GREAT UP CLOSE

Sharpness is superb, even up close. A minimum focus distance of just 0.29 m lets you focus sharply even with the camera just 29 cm away from your subject.

FAST, SILENT AUTOFOCUS

Powered by an ultra-quiet stepping motor and enhanced by the additional light gathered by the Z mount, focusing is fast, accurate—and silent.

MADE FOR VIDEO

Videos won't be ruined by focusing sounds. Focus breathing is dramatically reduced so you can adjust focus without affecting the shot's angle of view.

ADAPTABLE

The silent control ring can be set to control focus, aperture, exposure compensation, or ISO.

POCKETABLE AND PROTECTED

This lens is easily small enough to keep on the camera or slip into a coat pocket, and it's sealed to protect from dust and water droplets.¹

¹ The lens is not guaranteed to be dust- and drip-resistant in all situations and under all conditions.
